Liberty Lake, WA 99019

FROM: Community Addressing Urban Sprawl Excess

DATE: 12/8/06

RE: DEIS Comments

The enclosed pages contain the signatures of **over 400 residents** of the Liberty Lake Community, including residents from the city, from the area around the lake, and from the proposed UGA expansion areas.

Please accept the enclosed petition as comments on the DEIS. The petition reads:

Petition to Hold the Line, Alternative 1 or No Action on Urban Growth Boundaries

We, as concerned citizens of the Community of Liberty Lake, ask the Spokane County Board of Commissioners and the Liberty Lake City Council to not change the current Urban Growth Boundary. We endorse Alternative #1 of the city's proposals for UGA expansion to take "No Action." We cite these reasons:

(1) Development should be confined to existing urban designated areas where it will have the least environmental impact.
(2) The other proposed alternatives would result in urban zoning for many areas currently designated 1 house per 10-20 acres. Urban zoning would allow densities of 4 to over 20 units/acre.
(3) Some of the proposed expansion areas contain steep slopes, rock outcroppings and animal habitats not consistent with urban development.
(4) There are significant stormwater issues in both alternative expansion areas that would negatively affect the river and lake watershed and the aquifer recharge.
(5) Infrastructure (roads, sewer, water, schools) is not present to support urban density growth.

We urge you to listen to the voices of the community. Please vote for Alternative 1, No Action on the UGA boundary.

Respectfully Submitted,

STEVE SHIRLEY
President
C.A.U.S.E.

Petition to Hold the Line, Alternative 1 or No Action on Urban Growth Boundaries

We, as concerned citizens of the Community of Liberty Lake, ask the Spokane County Board of Commissioners and the Liberty Lake City Council to not change the current Urban Growth Boundary. We endorse Alternative #1 of the city's proposals for UGA expansion to take "No Action." We cite these reasons:

(1) Development should be confined to existing urban designated areas where it will have the least environmental impact.

We endorse Alternative #1 of the city's proposals for UGA expansion to take "No Action." We cite these reasons:

(1) Development should be confined to existing urban designated areas where it will have the least environmental impact.

(2) The other proposed alternatives would result in urban zoning for many areas currently designated 1 house per 10-20 acres. Urban zoning would allow densities of 4 to over 20 units/acre.

(3) Some of the proposed expansion areas contain steep slopes, rock outcroppings and animal habitats not consistent with urban development.

(4) There are significant stormwater issues in both alternative expansion areas that would negatively affect the river and lake watershed and the aquifer recharge.

(5) Infrastructure (roads, sewer, water, schools) is not present to support urban density growth.

Petition to Hold the Line, Alternative 1 or No Action on Urban Growth Boundaries
November 27, 2006

We, as concerned citizens of the Community of Liberty Lake, ask the Spokane County Board of Commissioners and the Liberty Lake City Council to <u>not</u> change the current Urban Growth Boundary. We endorse Alternative #1 of the city's proposals for UGA expansion to take "No Action." We cite these reasons:

(1) Development should be confined to existing urban designated areas where it will have the least environmental impact.
(2) The other proposed alternatives would result in urban zoning for many areas currently designated 1 house per 10-20 acres. Urban zoning would allow densities of 4 to over 20 units/acre.
(3) Some of the proposed expansion areas contain steep slopes, rock outcroppings and animal habitats not consistent with urban development.
(4) There are significant storm water issues in both alternative expansion areas that would negatively affect the river and lake watershed and the aquifer recharge.
(5) Infrastructure (roads, sewer, water, schools) is not present to support urban density growth.

Petition to Hold the Line, Alternative 1 or No Action on Urban Growth Boundaries

We, as concerned citizens of the Community of Liberty Lake, ask the Spokane County Board of Commissioners and the Liberty Lake City Council to <u>not</u> change the current Urban Growth Boundary. We endorse Alternative #1 of the city's proposals for UGA expansion to take "No Action." We cite these reasons:

(1) Development should be confined to existing urban designated areas where it will have the least environmental impact.

(2) The other proposed alternatives would result in urban zoning for many areas currently designated 1 house per 10-20 acres. Urban zoning would allow densities of 4 to over 20 units/acre.

(3) Some of the proposed expansion areas contain steep slopes, rock outcroppings and animal habitats not consistent with urban development.

(4) There are significant stormwater issues in both alternative expansion areas that would negatively affect the river and lake watershed and the aquifer recharge.

(5) Infrastructure (roads, sewer, water, schools) is not present to support urban density growth.

*R*esponse to Steve Shirley (C.A.U.S.E. Petition):

Not a comment on the adequacy of the DEIS, but rather an expression of concern for various issues and a preference for a particular planning outcome.
