### Library Tools Help Readers & Listeners Find Books You'll Like

If you are wondering what to read next, Novelist is the place to go! A trusted source for many years. This website, provided by Library subscription, slices and dices the world of books in ways that make searching for a good read simple, fun and virtually dud-proof.

Of course, you can look up the author of your favorite series, but Novelist will arrange those titles for you in order. Are all those books out? Then use the "Read-Alike" feature that will describe similar titles for you to try. Want to know more about a title? Click on it and get a summary and reviews. Search by title, genre, and even what you may know about the subject. If

you like to read prize-winners, Novelist has a tab for that. Refine your search by writing style, storyline, pace, tone, location, audience... So, there's no way you WON'T find something great to read. Next stop will be our online catalog and then a trip down the aisles. Wasn't that easy?

**"But Mom (or Dad), all the Wimpy Kid books are gone!"**

Don't panic, Mom (or Dad). Even if Wimpy Kid is all your

child wants to read, put those titles on hold and then head straight to Novelist K-8 for pages full of Read-Alike titles that will keep Summer Reading going until Wimpy Kid comes back.

Take a tour of Novelist K-8 with your young readers who are hard to please and have fun creating lists of possible books right in your own Novelist account. Print the list or any list the website may suggest and bring it to the library. Or, go to our online catalog and put on hold those books you want and pick them up at the desk later.

For older kids, Novelist K-8 is a great way to explore what else is out there that's like your favorite series or author, or even something totally different! Explore! Discover! Spark a Reaction!

**NEW BOOKS & MOVIES @ THE LIBRARY**

**NEW BOOKS**

**Without You, There is No Us** by Suki Kim

"Remarkable...A deeply unsettling book, offering a rare and disturbing inside glimpse into the strangeness, brutality and claustrophobia of North Korea... Kim's book is full of small observations that vividly evoke the paranoia and loneliness of a nation living in fear and in thrall to its 'Great Leaders...'—  
*Chicago Tribune*

**Seveneves** by Neal Stephenson

"A catastrophic event renders the earth a ticking time bomb. In a feverish race against the inevitable, nations around the globe band together to devise an ambitious plan to ensure the survival of humanity far beyond our atmosphere, in outer space." - Amazon

**The Wright Brothers**

"McCullough's usual warm, evocative prose makes for an absorbing narrative; he conveys both the drama of the birth of flight and the homespun genius of America's golden age of innovation." -*Publishers Weekly*
